

Gibbs and the NCIS team are heading to L.A. to work with the new **NCIS Undercover** team.

NCIS: Legend

Meet the OSP (**Office of Special Projects**) division of NCIS.

Gibbs must head to L.A. to work a case with the OSP to find out who killed one of their own, a deep undercover agent. Unfortunately for Gibbs, OSP is run by Clara Macy - an old "friend" from back when he was a Gunnery Sergeant and she was an MP in the Marines. There we meet Macy and her team - psychologist Getz, tech expert Vaile, newbie Kensi and undercover whiz Callen - who operate out of a high-tech facility hidden inside an abandoned warehouse in LA's garment district.

After this 2 week foray into the uncover world of the OSP, Gibbs and the NCIS crew will return to D.C., leaving Callen (**Chris O'Donnell**) and his team to deal with the dangerous work of undercover naval investigation.

The enigmatic lead agent Callen, whose natural talent for undercover work is legend, will lead an ace team of uncover operatives including:

Special Agent Sam Hanna (**LL Cool J**) - The ex-Navy SEAL, fluent in Arabic and an expert on Middle Eastern culture."

Clara Macy (**Louise Lombard**) - The undercover operative.

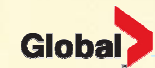

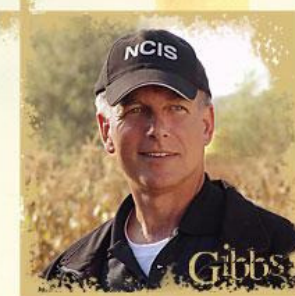

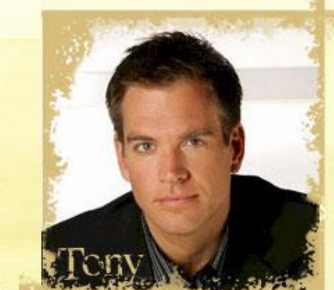

Nate Getz (**Peter Cambor**) - The psychologist.

Kensei (**Daniela Ruah**) - The forensic investigator.
