Two years have passed since the mild-mannered Peter Parker walked away from his longtime love Mary Jane Watson and decided to be the one to take on evil and protect the innocent as Spider-Man.

Peter struggles to cope with "the gift and the curse" of his powers while balancing his dual identities as the elusive superhero Spider-Man and life as a college student.

His life becomes even more complicated when he is pitted against a powerful new nemesis, the brilliant Dr. Otto Octavius. Peter must now learn to accept his fate and harness all his superhero talents in order to stop this diabolical madman in his octagonal tracks.
